

Health and wellbeing update 2019-2020

PE

This year our children have enjoyed developing their skills in dance, gymnastics, football, tag rugby, bench ball and basketball. We also had some lessons delivered by Steve Biltcliffe, our MAT sports lead. We are very proud of our high standards of teaching and learning in PE where at least 90% of our children are at or above age related expectations.

Competition

In the Autumn Term we entered the MAT football competition and took a team of budding young footballers from Years 1 and 2. We were very proud to finish 2nd.

Visitors

This year we enjoyed a visit from our community Police Officers. The children were left with the task of naming a bear they left behind. Ted now lives at school and has a box where children can post any concerns or worries they may have. We also had visits from Reverend Barry and Dr Khan to help children learn about similarities and differences.

School Council

The School Council have updated our child friendly safeguarding poster and have been busy working on ideas for a child friendly inclusion policy. Both are displayed around school for all children to see. Mason and Katie attended the MAT Parliament meetings and helped secure the bid of £500 to put towards our outdoor area.

After school clubs

This year our clubs have included a sports club, playdough, mindfulness, multi-sports, construction, fun and games, board games, dance, funky fingers, drawing and sewing. We have continued to offer at least one active club each half term.

British Values

The teaching of British Values has been embedded through our value of the term approach. This year our values have included good manners, respect, kindness and resilience. The completed leaves are regularly shared with the children in assemblies and in class.

Lindsay Tutt (Health and Well being Leader)
