

Parts of a Plant

Can you name the parts of a plant?

Each part of a plant has a special job.

Stem

The job of the stem is to support the plant and keep it upright.

Flower

The job of the flower is to attract insects.

Root

The job of the root is to take up water and nutrients from the soil.

Leaf

The job of the leaf is to soak up the sunlight for the plant.

Can you name the parts of a plant and identify their function?
