

Health and wellbeing update Summer 2019

PE

This term KS1 have enjoyed bench ball, cricket, athletics and hockey. Reception have enjoyed team games and cricket too. They have also enjoyed practising their bike skills outside and have had the time and space to practise the skills they have learnt in PE. We took 2 teams to the Matlympics event and had a great afternoon (despite the rain) and we're delighted to bring home the trophy for winning the MAT scatter ball competition!

Visitors.

We had another visit from Derrick from ZET - he came to collect the money we had raised for the charity and shared with us a video of the children in Zimbabwe thanking us for the money we collected for them.

We also had another visit from Peter Ward (Change 4 Life) who visited to promote the importance of walking to school to help improve fitness and to help save our planet (less pollution).

School Council

The School Council had the great idea of raising money by hosting a book stall at our Summer Fair. The children raised over £40 which will go towards an outdoor library box next year. Erin and Quinn also represented our school at the Parliament meetings and helped secure a bid of £500 to put towards our outdoor area.

Visits

This term the Nursery had a great day at Temple Newsam, Reception had a super summer walk to the local woods, helped pick up litter from the local park and enjoyed a great day at St Leonards Farm. KS1 spent the day at Fairburn Ings, enjoying pond dipping and a plant and tree scavenger hunt.

After school clubs

This term after school clubs have included play dough, drawing, fitness fun, commendation, den building and Science.

Lindsay Tutt (Health and Well being Leader)
