Don't Forget...

- Practise your spellings and handwriting regularly.
- This timetable can be reorganised to fit in with your family - but please try to engage in at least 3 hours of lessons/work each day.
- Your class teacher will call you every week to check your progress. You can email your class teacher with any questions at: leebriggjaguars@watertonacademytrust.org
- We will look at issuing paper packs where required.
- If you need any help at all, please just get in touch with us on 01924 893829 or at leebriggadmin@watertonacademytrust.org
- Remember to upload your completed work to TEAMS or email it to your teacher!

Wider Curriculum – Pick a Project – You can do one per day, one per week or over a few days

Geography

This week, as scientists, we are going to learn all about our amazing human body!

Watch this short clip to learn all about the different parts of the human body:

<https://www.bbc.co.uk/bitesize/clips/zsjsbk7>

Watch this next short clip to learn all about the 5 senses and which body parts we use for each sense!

<https://www.bbc.co.uk/bitesize/topics/z9yycdm/articles/zxy987h>

See TEAMS for further details

Geography

As geographers this week, we are going to be learning some map symbols to help us to read maps. On Teams, there is a grid with map symbols and the matching words. Play some of the suggested matching games to help you to learn what the symbols mean.

Do you have a map in your house? Can you spot any symbols on it? Go for a walk. Can you spot any symbols on your walk? Take a photograph!

Science

As geographers this week, we are also going to put symbols onto a map of Altofts and Normanton! First, go for a walk with an adult in your local area. What physical features (natural parts of the landscape) can you see? What human features (man-made buildings etcetera) can you see? Take some photographs!

Next, on Teams, you will find a simple map of the local area with a symbol key. Use the symbols provided to label the map. Alternatively, get creative! With an adult's help, draw or make your own map of the local area, using the one on Teams to help you. You could even use Lego and other things in your house to represent different buildings! Draw your own symbols and place them on your map. This part is important - we need to know how to use map symbols!

PE – Get Active Every Day!

Get active with Joe Wicks on a Monday, Wednesday and Friday! Click the picture to watch the videos!

Daily Mile

Can you calculate how many laps around your garden a mile is? You could complete your daily mile!

Create your own personal challenge!

Set a target for it and see how much you can improve. No equipment? See how many times you can run across the garden in 30 seconds. Got a ball? How many consecutive catches can you make! Skipping rope? How many successful jumps can you achieve!
